PLANT EXPLORATION
AND INTRODUCTION
ANSWEREDLIBRARY
RECEIVED

U. S. Department of Agriculture

The Florealp garden is situated at nearly 5.000 feet of altitude, in the Swiss part of the Mont Blanc chain, on the lake of Champex.

The nearest railway-station is Martigny-Orsières on the route of the Grand St.-Bernard.

The conditions of growth of the plants are particularly favourable both concerning soil, which is a moraine-soil, and climate, a real alpine climate.

The seeds are packed with the greatest care. We warrant the authenticity of the species delivered. The seeds are gathered from strong and healthy plants cultivated in their natural soil.

PRICES OF EACH PACKET. — Each seed packet costs —/11 They are good sized packets but rarer species have less seeds in them.

PRICES OF COLLECTIONS :

10 best kinds	6/—	} post paid
20	—	10/—	
50	—	20/—	

We put (*) for seed which can be sold by weight. Please ask special offer.

TERMS. — The prices quoted are for cash on receipt of invoice.

Cheques should be made payable to « Florealp », CHAMPEX.

Packing and postage will be charged at cost price.

Seed orders amounting to 10/— are sent post paid.

All our parcels travel at Owner's Risk Rate.

Correspondence to be sent to J. M. AUBERT, Florealp, CHAMPEX (Switzerland).
